

I want to write in opposition to the possible changes in the FM service pertaining to KLOVE radio.

I live in Tucson Arizona and I have seen first hand the affects KLOVE has on the community here. I hear everyday how people are always excited to hear good music that has an uplifting spirit to the words sang every day. In fact, I know a High School student who says he listens to KLOVE simply because of the great encouragement it is as apposed to other local stations that always make him feel depressed.

I encourage you to not pass this new change, and to continue to allow KLOVE to air nationwide!! The impacts of students and families everywhere are greatly appreciated and needed.

Cheers!
